Marshall Briefing Document, HDSRL Race Sicklinghall 21st July 2021
Time/Location: Marshal briefing scheduled to take place at 1900pm by field entrance

Role

- The race marshal role is critical to the safe running of the event.
- It is the duty of the marshal to ensure all runners safely complete the course or to safety organise the pickup of runners who can't complete the course. Your responsibilities include directing runners on the correct route and dealing with any incidents and emergencies that occur on the route.
- Please familiarise yourself with the course route map and the emergency/incident procedure.

Location

- You will find the number and location of your assigned marshal point on the marshall location map. These will also be available on the night.
- Please ensure you understand how you will get to your position. We have tried to allocate marshalls with bikes to the furthest points of the course, but if there are any problems with your assigned location, please contact Emily Legg on 07799581980.

Duty Time

- You will need to be attendant at your post from 19.25 (race start, 19.30pm). You may stand down and return to the start when the back markers have passed you (race finish)

Clothing

- **ALL MARSHALS SHOULD WEAR HIGH VISIBILITY OUTER CLOTHING SUCH AS A JACKET OR VEST.**
- The race is in July so it may be fine weather, but this is the UK so it may rain and blow a gale, please ensure you bring clothing appropriate for staying comfortable when standing around for 2 hours in the prevailing conditions.

Communication

- It is necessary that the Race Director and marshals can be in contact during the event
- **EACH MARSHALL NEEDS A MOBILE PHONE**
- **MARSHALLS NEED TO STORE THE NUMBER OF THE RACE DIRECTOR SIMON CHANDLER (07767 332 562) AND THE MEDICAL DIRECTOR (RICHARD DAVEY, 07838 265 494) ON THEIR PHONE.**

Incident or Emergency Procedure

- If you are the closest marshal to a medical emergency or an incident on the route which requires a runner to be picked up from the course the marshal should immediately call the Medical Director (Richard Davey – **07838 256 494**) at the first instance who will organise the evacuation of the runner(s). If the MD is not contactable then call the Race Director (Simon Chandler -**07767 332 562**).
- What information will your medical controller need to know (*Remember to speak clearly*):
  - give the casualty's location and the location of the nearest vehicle access point.
  - give brief explanation of casualty's condition.
  - await further instructions.
